My Winged Waypoints

Corvus corax

Common Location: All States

Color: Black

Description: a large, completely black bird with glossy plumage, a thick bill, a wedge-shaped tail, and shaggy throat feathers (hackles). As the largest songbird in North America, it is distinguished from crows by its larger size, robust bill, soaring flight, and a distinctively wedge-shaped tail in flight

Date Seen: 01/05/2025

Notes:

I saw a raven today
